I'd like to welcome you to the fourth edition of Brasil FurFest, where we'll get to know an amazing furry city called Furtropolis. With this theme, we want to imagine how a furry society within an urban space would be – in a Brazilian way!

Over these 4 years of Brasil FurFest, we watched the event grow rapidly and friendship between furry attendees become stronger. Our slogan "Friends Forever" shows the desire of the convention being a wonderful place for us to celebrate together our fandom, with the best of our community and the best of ourselves.

This year in Furtropolis we'll see furies from all over Brazil and international visitors who want to take part in the special mixture we have here.

Our desire is that Brasil FurFest continues to be this special place where we can spend a weekend together, being ourselves, without fearing prejudice and judgments.

And it's up to us to keep on being this wonderful fandom!

I'd like to thank all furies who believe in the dream of a furry convention in Brazil. The event is a success because of you. Thank you very much for supporting Brasil Furfest!

Thank you also for all the talented artists who are very kind in supporting and helping us with all BFF's illustrations. You are awesome!

Finally, I would like to thank Converse, which at the last minute, decided to support our event. The success of the campaign with Furboliche resulted in a partnership to enhance the audiovisual and lighting of our event, increasing the quality of activities in City Center room.

That's it! I invite you all to enjoy every second of Brasil FurFest, it's made by furies for furies. No doubt this is the most special weekend for all of us and now it's time to enjoy it!

Keep up this amazing community!

Furtropolis. One of the biggest cities in the world!

It may seem it's like any other city...

But furies live there!

From the most different species and genders!

- Sorry the delay, dudes!

- Finally!

- It was about time!

- I was gonna call you!

- It's going to start!

But today it is a special day...

The desire to hold a furry convention in a hotel in Brazil is longstanding. There has always been the question: Is it possible to do something like this in our country?

The furies that founded Furboliche (Sao Paulo's Furry bowling event held since 2014) believed so.

Since that time they had planned a hotel event called "Confursao" (abbreviation for Convenção Furry de Sao Paulo, Portuguese for Sao Paulo's Furry Convention), but as they had no experience to hold a large event they decided to organize the bowling, in order to understand the dynamics of Furry Fandom.

In mid-2016, with the announcement of the end of Abando, first Brazilian Furry convention, Furboliche staff announced they would make the already planned convention, but the name would change from Confursao to Brasil FurFest. The official announcement was made during Furboliche 5. During the presentation, the logo, photos and videos of the venue were revealed, and it was said that everything would start with a crowdfunding. More structure and activities for the event would be added depending on the fundraising.

The goal was reached quickly, and the event was confirmed for September 2016.

The first Brasil FurFest, which had the theme "Furries in Santos", took place at Mercure Santos Hotel and brought together 169 furies from all corners of Brazil and 5 countries.

The second edition, which was held at the same venue on August 2017, reached new horizons with the theme "Furries in Space" and 287 attendees.

Last year the event was cinematographic! The theme "Lights! Cameras! Furries!" drew 431 attendees from 8 countries and more than R\$ 12,000.00 was raised for charity. Big numbers we had never imagined we would reach when we started the convention in 2016.

Brasil FurFest is growing rapidly and in 2019 we want an even more amazing event.

In previous editions, we had countless activities like panels, dealer's den, dance competition, fursuit games, games, charity auction, and even a book launch.

This year, BFF brings new emotions. One of them is the first concert of Foxes and Peppers in Latin America!

Brasil FurFest's goal is to continue to be a meeting point for furry fandom, where furies from here and abroad can spend a unique weekend.

The dream of having a furry hotel convention in Brazil is more alive than ever! Our story goes on...

### **2019 Theme**

#### **Furtropolis**

With easy access via Critterstate 95 or Mulles International Airport, Furtropolis is in the heart of Brazil. It is a vibrant city where anthropomorphic beings, also known as furies, live. Through its streets, avenues, beaches and parks, the culture, sounds, colors and the mix of a diverse population make Furtropolis one of the most special places in the world!

#### **City**

Population: 621,000 inhabitants

Density: Fluffy

Gentilic: Furtropolitan

Neighboring municipalities: Pawllywood, Moo York, Bark Harbor, Clearotter and Purrland.

Mayor: Ursula Mercure

Climate: Festive

Altitude: 5m (Floor L, 2<sup>nd</sup> floor)

Timezone: The same as you are

#### **Coat of Arms**

The Coat of Arms, in the medieval European tradition, is specifically created with the purpose of identifying individuals, families, clans, corporations, cities, regions and nations.

Furtropolis also has its Coat of Arms, created to represent the city and Brasil FurFest's history.

It has a Portuguese shield, divided into three parts, each one representing the years in which Brasil FurFest was held, with its previous themes. On top of the shield rests the silver mural crown, consisting of 8 towers.

The Coat of Arms is supported by two bowling ball branches, alluding to Furboliche event, which was Brasil FurFest's precursor.

## **Page 11**

**Furtropolis, besides being a cosmopolitan city, is remembered worldwide for its avenues and sightseeings!**

#### **A passion: Soccer**

It is a national passion!

As in every Brazilian city, Furtropolis also has its soccer team, the multi-champion Furtropolis Soccer Club, called by the population "Furry-Yellow-Black-and-White"!

In 2019, we have news on the selling of this winning team's uniform: part of the proceeds will be given to Brasil FurFest's charity campaign.

This way, besides showing the world their passion for soccer, Brazilian and South American furies also show that together, besides being a beautiful crowd, it is possible to accomplish incredible things!

**- Volunteering**

Brasil FurFest is growing quickly throughout the years, and logistics and organization challenges are growing too. All help is welcome to make this beautiful convention work!

Volunteers wearing a purple vest help attendees and are active in the organization of the event.

We are recruiting volunteers to assist at the convention.

If you are attending the event and are over 18 years old, you are welcome to volunteer.

Show up at the staff table in the hallway at Floor L and find out what you can do to help.

When you volunteer, you get an exclusive volunteer bottom and credit on Brasil Furfest's 2020 registration.

Check out the rewards table and be a part of BFF!

#### **- Quest BFF 2019**

All we can say is: This year the first clue for the Quest isn't with Brasil FurFest. It took the plane below and left the country.

Hint: phonetic alphabet may help you...

#### **- Tributes**

##### **Tame Wolf Square**

Bruno Kauffman Abud was at the fandom from 2002 to 2004 using the name Tame Wolf.

This white wolf with long orange hair and with pink tip of ears and tail ran Brazil's first furry talk show, "The Tame Talk Show". The show aired for over a year and was extremely popular in Brazilian fandom.

Outside the fandom, he worked as a reporter for TV channels affiliated with Globo, a company that he had always admired.

Born in Santos, he lived with his family in an apartment less than 100 meters from where BFF is held today.

He died in a severe car accident in 2004 while covering that year's Open Countryside Games in Barretos, SP.

##### **- Dogbomb Street**

Dogbomb, whose real name was Tony Barrett, was a fursuiter and an amateur marathoner residing in California and Arizona, USA.

His fursona, a German shepherd, was first seen in the fandom in 2010 in a photo next to a girl with cerebral palsy.

In March 2018, Dogbomb was diagnosed with ALS, Amyotrophic Lateral Sclerosis, and doctors said he would live for more 3 years only. Dogbomb tried an initial treatment to stop the disease, and with the help of the fandom raised donations for researches to find the cure for ALS. However, on March 29, 2019 he announced he would end with his life in April.

His fight against the disease and the various actions to raise funds for medical research are his legacies that will live forever among furries.

## **REGULATION**

Guests of Honor

Look who's going to be at BFF!

### **Page 23**

#### **Pepper Coyote**

Pepper Coyote is an American musician who has a duo with Brasil FurFest 2018's Guest of Honor, Fox Amore, called Foxes and Peppers. He is also lead singer and fiddler at the progressive rock/folk band "Look Left".

Pepper, or Pepper Artful, as he is called at Second Life, is known by his joke-packed and unusual musical performances at furry conventions.

The renowned album #Hashtag, recorded with Fox Amore, is considered one of the best musical works from the furry fandom all over the world. It is a collection of 14 tracks inspired by involvements with Anthrocon, the second biggest furry convention in the world, held annually in Pittsburgh, USA.

Foxes and Peppers will have the famous after dark concert on Saturday, 11 PM, at City Center Room. This is the first time both musicians perform together in Latin America.

### **Zeng Tiger**

Ramon Espechit, Zeng Tiger (or even Zenun for friends of yore) is one of the most known Brazilian fursuit makers abroad, due to his amazing talent in fursuit making.

Zeng is from Manhuaçu, Minas Gerais, and makes fursuits since 2010, when he fell in love with the furry fandom and fursuit making.

He has been living in São Paulo since 2017; he improved his workshop and increased commissions for international clients.

One of the creations of his company Furry Machine is Brasil FurFest 2018's Guest of Honor fursuit, Crash Azarel - possibly his most known work in the world.

His style and workmanship led him to attract the international market and to be the Guest of Honor of Harbor City Fur Con in Australia last year.

Now it is time for Brasil FurFest to acknowledge this Brazilian talent of furry fandom.

Zeng will have a panel called "Fursuiting for Dummies", on Sunday, 2 PM, at City Center room. Don't miss it!

## **Page 24**

### **A very fluffy market**

#### **Dealer's Den - Let's go shopping!**

The artists of our fandom make from art to handicraft and props, and other wonderful items!

And you can find all of them in our Dealer's Den!

The Dealer's Den or Artist's Alley, as it's called in furry conventions all over the world, is a space for artists, artisans, fursuit-makers and writers sell their art, comics, books, stuffed animals, props, fursuit parts, and many other items.

Brasil FurFest supports the production of furry artistic content since its first year. The Dealer's Den happens every year since our first edition in 2016, and every year it has attracted more and more the attention of the attendees.

Besides being a place to buy and sell furry items, the Dealer's Den also is a showcase for furry talent. A lot of artists use the Dealer's Den to show their works and sell art commissions.

In 2019, the Dealer's Den will have 34 stands with the most different types of products.

Be sure to stop by Brasil FurFest's official store to check the event official souvenirs, besides the sweatshirts with the convention logo that everybody wants.

Come and meet the furry fandom artists at the Dealer's Den and honor their talent by buying their items.

When you shop at the Dealer's Den, you directly support furies and the growth of our community.

**Ah! Love...**

## **More than Friends Forever!**

Brasil Furfest may be a place to make more than new friends. In 2018, Itrami and Luna met at the event and after being lovestruck, started living together and got married afterwards. Get to know this love story signed by our Fandom!

Brasil FurFest is, undoubtedly, an event where many stories happen. Some are funny, some are exciting, but this one is special. This is a love story that touched two participants' lives.

Itrami and Luna came to Brazil FurFest 2018 for different reasons. He was already a furry and wanted to participate in the event for a while. And the convention was already awesome for Itrami, who got one of the fursuit heads in the Charity Auction. She came without big expectancies, with a furry friend. Until here, there are two normal stories for participants...

Destiny, however, decided to play a trick and changed their lives' courses after the ending ceremony, when both of them, who still didn't know each other, ended up in the same room party. So was Itrami and Luna's relationship born. "A common friend threw a farewell party with pizza in BFF 2018's last day and we were both invited. I got brave and threw a terrible line at him, but it worked" says Luna, laughing.

Itrami says Luna's line cannot be revealed, but that her interest got his attention and both enjoyed the rest of the evening together.

## **Page 27**

Although it was love at first sight, the couple only decided to go further a few weeks after the event. "When I visited Luna in her city, I took a commitment ring", says Itrami, that believed the relationship would be long-lasting since the beginning.

The 19 year old furry tells he spent about 1 month at her house, and the feeling of love and the certainty that Luna was the right person for him to be his partner for the rest of his life started growing with time. "It got to a point where we really asked ourselves: why not move together?"

Luna tells that, in the beginning, she wasn't sure the relationship would be lasting. "It was weird for me because I really didn't see myself so early in a relationship and didn't understand how he had gained so much space in my life".

After the initial shock, the routine and love melted her heart. "It's a relationship based on love and learning. I think above all we have learned a lot with one another", says Luna.

"Love is the most important part of the relationship, because it's what motivates you to put effort in other important things" completes Itrami.

After an official wedding proposal, with Luna's mother's blessing. Itamar and Pamela (their real names) made their marriage official on March 30th, 2019. A small party for close relatives and friends also marked the two furies' wedding, which met at BFF. Now the couple has a full life ahead with many plans. Brazil FurFest would like to make a small tribute and congratulate the couple for the beautiful story that started in the convention and wish never-ending happiness, wisdom and partnership.

May Itrami and Luna live happily ever after!

**"Certainly the event is a divider, there's a before and an after and you need to participate to experience it."**

**-Itrami**

**"For me BFF is more than just an event, it's a possibility of getting to know people and let it transform you."**

**-Luna**

## **Page 28**

## **Animus**

### **A knight dragon in comics**

**A comic that is more than drawings and an adventure. Get to know Animus, creation of Keto Pagano] and João Mausson.**

Brasil FurFest proudly presents the launch of the comic Animus, created by illustrators Keto Pagano and João Mausson.

We are going to meet Animus, a knight dragon who lives and a RPG-like medieval world. The character is in a very important journey, searching for something very valuable that everybody wants, but just a few have it. In this adventure, the dragon hero has a very precious and delicate jewel with him.

Animus needs to face very powerful and uncommon enemies in epic battles in order to move on, fighting against the ghosts in his mind. But will he be able to overcome his afflictions and continue his journey?

The comic has puzzles for the reader to solve and understand all the secrets of the plot, besides deciphering the dialogues.

So, Animus is more than a linear story. We can say the text is a fun word search game through its pages.

Keto Pagano is responsible for the script, while João Mausson is responsible for the exceptional illustrations that place you within this unique universe.

You can buy Animus at the Dealer's Den or at the afternoon autograph session with both authors at BFF.

Honor the artists of our fandom!

**New furry conventions are being made in Latin countries and this is great news for our fandom!**

Spain, Argentina, Mexico and Brazil. Countries that seem to be very distant, but they have something in common: Latin roots.

New furry conventions are being made in the biggest Latin countries since 2016 and this is great news for who wants to travel, get to know another country and take part in a furry event!

It is true that in the past there were some furry conventions in these countries, such as Abando (Brazil), UFACon (Argentina) and Animales Sueltos (Argentina), but these initiatives eventually disappeared over time.

This new movement is now based on the exchange of experiences between conventions, aiming they don't disappear.

In addition to being in the international furry convention group, the Ibero-American events created in 2019 their own group to exchange information and experiences on organization, logistics, suppliers, etc.

The purpose is to use the growth of the fandom in these countries to consolidate conventions and support new activities.

And the new conventions have interesting numbers, like Furcamp, that in 2019 had the registrations sold out in a few days, or Confuror from Mexico that in its first year had 541 attendees, becoming Latin America's the biggest furry convention.

It is also worth mentioning that in the first year of Argentina FurFiesta, besides the 234 attendees, it was raised about R\$ 8.000,00 in donations for charity.

The fandom grows and appears now with new accents and in every corner of the world!

**Page 32**

**Argentina FurFiesta**

**Location:**

**Buenos Aires, Argentina**

**Attendees:**

**234 (2019)**

**Website:**

**[furfiesta.com](http://furfiesta.com)**

The desire of having a furry convention in Buenos Aires is not new. It exists since the group ArgentinaFurs was created in 2009. At the time, the Argentinian fandom had a convention called UFACon in Rosario.

Over the years, dozens of furmeets were organized in Buenos Aires, and thanks to that, the group started to grow.

In August 2017, thanks to BFF's influence, a new convention was born and ArFF had its first edition in 2019, with 234 furies from 10 countries.

And a new edition has already been announced for 2020.

## **Confuror**

**Location:**  
**Guadalajara, Mexico**

**Attendees:**  
**541 (2018)**

**Website:**  
**confuror.org**

Confuror was created from the event VidaFur, that was made in Guadalajara since 2009.

The furmeet grew, and in 2017 the organizers decided to make a hotel convention.

In 2018, its first year as Confuror, the event became Latin America's the biggest furry convention.

Next edition of Confuror will be on October 11-13 2019, its theme will be the circus arts and it will be called "Mr. Maw's Mysterious Freakshow".

More than 300 furies registered during the Early Bird in January.

## **Furcamp**

**Location:**  
**Ribeirao Grande, Brazil**

**Attendees:**  
**46 (2019)**

**Website:**  
**furcamp.com**

Furcamp was born in 2018 with the announcement Brazil would have a furry camp convention on the next year.

In a certain way, Furcamp is a spiritual successor of the first Brazilian furry convention, Abando, that had its last edition in 2016.

The organizers make it at the same venue Abando was held for 4 years, and the event has similar dynamics.

This year, on its first edition, Furcamp gathered 46 furies (+ staff) from all over Brazil during Carnival.

## **Furnion**

**Location:**  
**Madrid, Spain**

**Attendees:**  
**541 (2018)**

**Website:**  
**furnion.org**

A Spanish group of people decided to create the convention after an informal conversation in a pub in Madrid.

The workgroup was created to make the convention come true and in January 2017 Furrnion had its first edition, gathering about 220 furrries.

Last year the convention grew and had 341 attendees.

In 2019, the event will be at the Meliá Barajas Hotel, near Madrid airport.

The name of the convention, "Furrnion" comes from "Furry" + "Reunion" (Meeting in Spanish).

#### **An Amazing Fandom**

**Donate in the orange charity cans you can find at the convention center.**

**Furry fandom raised about US\$ 600 K in donations in 2018, and this year once again BFF helps Santos' street animals!**

More than being a furry convention, Brasil FurFest also wants to make the difference.

With this in mind and following the tradition of furry conventions held all over the world, one of our activities is a charity campaign.

Brasil FurFest is the first event of the Brazilian furry fandom to collect donations from its attendees.

In 2016, furries donated R\$ 420 to Mapan, an entity that collects animals from the street, giving shelter and looking for people who want to adopt pets in a responsible way.

In 2017, Brasil FurFest raised R\$ 2.668,10 to the so-called NGO SOS Vida Pet Baixada Santista, that has a social work supporting shelters for street animals.

2018 charity campaign reached huge numbers, raising more than R\$ 12,000.00 in donations to the now called SOS Vida Pet Litoral. The money was fully used in feed, vet appointments and shelter improvements.

The NGO gives updates on its Facebook and Instagram pages about invoices and information regarding the use of the collected donations.

In 2019 the charity campaign wants to keep helping dozens of shelters maintained by Santos citizens who love animals and collect them from the streets on a voluntary basis.

The pets stay in those shelters until they are adopted by people who also love animals.

Brasil FurFest's goal for 2019 is to achieve an even greater value than last year to help this group continue its work and to send a strong message to the world: The furry Fandom has social responsibility.

We invite everyfur to leave their donations in orange charity cans throughout the weekend. You can also donate food and other items to be used in the shelters.

Besides donations, BFF staff will propose some challenges throughout the event, to increase the fundraising for the charity campaign.

Participate, donate, help. When we come together, we can accomplish incredible things!

## Special Thanks

We would like to thank all the furies and fandom supporters who helped making another edition of Brasil FurFest.

Our dream of making a furry hotel convention in Brazil is more alive than ever.  
Thank you all very much!
